

Commercial International Wires Auto Conversion Exclusion/Opt Out Form

Synovus converts U.S. dollar transfers destined to a beneficiary account outside of the United States to the local currency of the country where the beneficiary account is held prior to receipt by the beneficiary's bank.

If you would like to continue sending U.S. dollar payments to foreign beneficiaries, you can exempt them from the auto conversion process. To exclude beneficiaries from this service, please provide the information requested in the Exclude Payments section of the form.
